Include **screenshots/graphics** to illustrate what you did this past week:

2. What problems did you run into? What is your plan for them?

Just was a bit busy but I was able to plan around it to get decent work in with the team still.

3. What is the current overall project status from your perspective?

We are essentially done it is now just refining and improving code while also making it look pretty.

4. How is your team functioning from your perspective?

Great we have pretty much finished up now just work on presentations and finalizations.

5. What new ideas did you have or skills did you develop this week?

Got a way better idea of how to actually print nice looking 3d prints and design them as well. And new ideas of how to potentially improve the code.

6. Who was your most awesome team member this week and why?

I would put Kris and Will since they put in a lot of work in their free time to improve more upon the code.

Plans for Next Week

What are you going to work on this next week?

Improve code finalizations and performance and final prints for 3d prints.
