

## Individual Weekly Report 10

**Name:** Aaron Martinez

**Team:** The Gauntlet

**Date:** 4/14/25

### Current Status

1. What did you **personally** work on this past week?

Task	Status	Time Spent
Mounting the board to wrist	In progress	1 hr
Connecting flex sensor wires to board	done	30 min
Cover wires	In progress	30 min

Include **screenshots/graphics** to illustrate what you did this past week:

2. What problems did you run into? What is your plan for them?

Ran into having to change the orientation of the board on this wrist. Made the wire connection easier and turned out being a better plan than what we originally had. Flex sensor in the ring finger might also be broken.

3. What is the current overall project status from your perspective?

The project is about 80% percent done with all thats left being refining code and making the glove look pretty.

4. How is your team functioning from your perspective?

The team is functioning well. Everybody is doing the most they can in order to finish the project.

5. What new ideas did you have or skills did you develop this week?

Had new ideas about how to cover and reduce the wires. We thought to get a long tube of shrink wrap in order to cover.

6. Who was your most awesome team member this week and why?

Most awesome team member this week is Kris. He went out of his way to go to the store before class and has spent time late into the night working on it.

### Plans for Next Week

What are you going to work on this next week?

Going to finish covering the wires and putting the cover on the hand. Also going to check out the maybe broken flex sensor.
